The undersigned (whose title is supplied below) is empowered to act on behalf of the assignee.

Pursuant to 37 C.F.R. § 1.321(b), and to obviate a double patenting rejection, the assignee identified above hereby waives and disclaims the terminal portion of the term of the entire patent to be granted upon the above-referenced application subsequent to the expiration date of *the patent to issue from U.S. application serial no. 10/211,199* provided that any patent granted on the above-referenced application shall be enforceable only for and during such period that it is commonly owned with *the patent to issue from U.S. application serial no. 10/211,199*.

The assignee identified above does not disclaim any terminal part of any patent granted on the above-referenced application prior to the expiration date of the full statutory term of *the patent to issue from U.S. application serial no. 10/211,199* in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title as stated above. Assignee herein does not disclaim or otherwise affect any part of *the patent to issue from U.S. application serial no. 10/211,199*.

This disclaimer runs with any patent granted on the above application and is binding upon the grantee, its successors or assigns.
